## PROFILE

Passionate about software development, I am looking to learn new things where I can apply my knowledge and skills for continuous improvement.

## SKILLS

I have experience in the following:

**Programming Languages:** C++, Java, JavaScript, Python, HTML, CSS, SQL, Matlab, C#

**Frameworks:** React, .Net, Django, Java Spark Framework, Bootstrap

**Programming Skills:** Object Oriented Design, Algorithm Design, Data Structures, Agile Methodology

**Tools:** Git, IntelliJ, Visual Studio, Postman

## ACADEMIC EDUCATION

### University of Sydney 2017 - 2020

*Bachelor of Software Engineering Honours*

### University of Auckland 2016

*Bachelor of Engineering Honours*

## EMPLOYMENT BACKGROUND

### Frontend Software Engineer (Intern)

*GPOS Limited, Mt Eden | Dec 2019 - Feb 2020*

Developed templates for a payments screen using React and Ant Design. Refactored the website's code into a React Application. Wrote extensive integration and unit tests for the created payments screen. Engaged with Agile Methodologies (weekly sprints). Improved presentation skills via presenting the product to the team.

### Assistant Manager (Part time)

*Eden Foods, Mt Eden | Jan 2014 - Dec 2019*

Utilized organisational skills to oversee and guide employees. Aided in stock management and control of the daily workflow within the store to maintain efficiency and order. Provided excellent customer service via professional and friendly communication.

## PROJECTS

### The Amazing Race

*Skills: Django (Python), HTML, CSS, JavaScript*

Developed the frontend for the website that mimics the mechanics of "The Amazing Race". Worked with the backend team to ensure smooth integration between server-side and client-side components.

### SnipSnok

*Skills: Hibernate, MySQL, Java, HTML, CSS, React, Spring, Axios*

Developed along with team members as a part of a university project. SnipSnok is an application designed to help struggling content creators in Australia. Users can donate to others, follow others and post/like content they enjoy!

### My Portfolio

*Skills: React, HTML, CSS*

Created a portfolio in React to showcase my projects and you get to learn a little bit more about me!

### Real Time Weather Application

*Skills: HTML, CSS, React, Algorithms, JavaScript, Data Structures, API Usage*

Developed an application that displays the weather information for cities around the world. It fetches the information using OpenWeatherAPI and formats it in a dynamic and readable way using React components.
